

Protecting your home
never looked this good

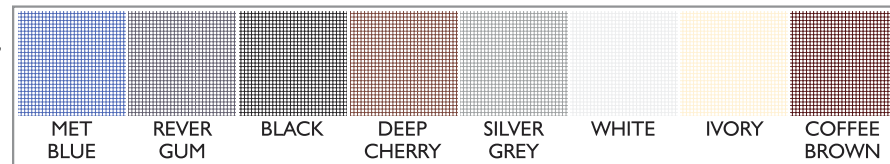

Presenting the all new Rombus insect screen - the ultimate in mosquito protection technology from the House of World leaders in Polymer nets technology.

Tuflex India (formerly Netlon India). These screens are made using modern RICAL technology, a latest extrusion technology in square or rectangular mesh.

Apart from protection, Rombus insect screens add to the aesthetics of your windows. Manufactured from quality material and available in six color variations, Rombus is as modern as your lifestyle.

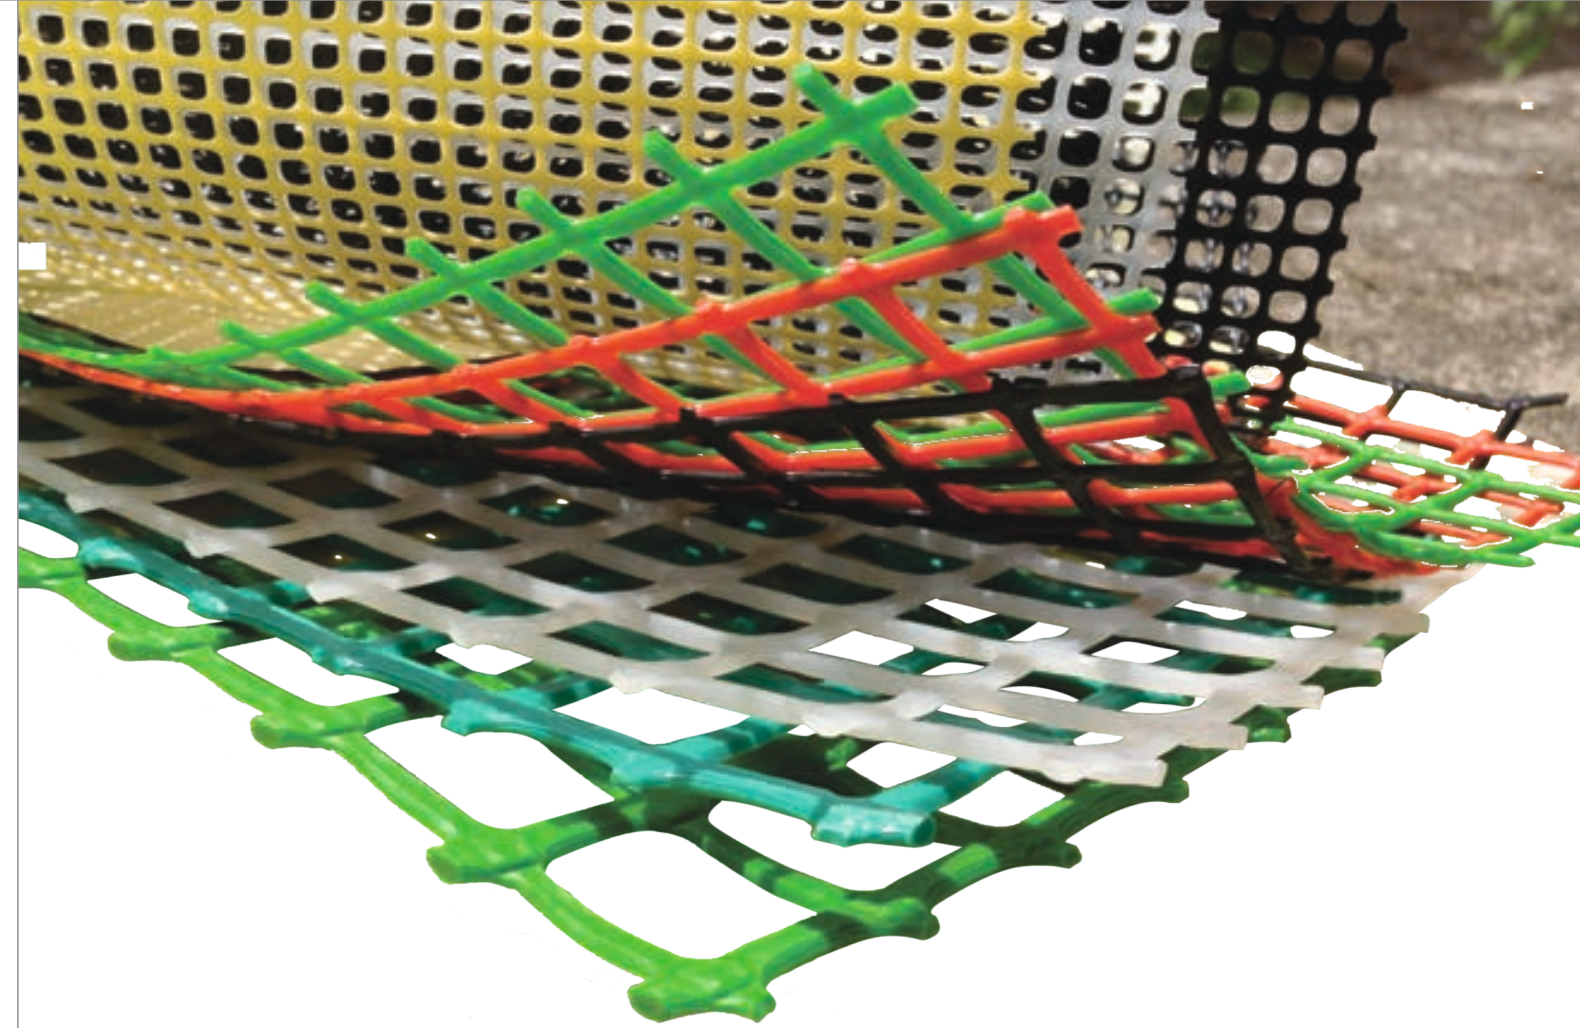

Available in attractive colors

Rombus ensures superior durability, higher air flow, as well as better aesthetics. In other words, Rombus is the smartest way to protect your home.

Smart Advantages:

-  Good airflow
-  Better visibility
-  Longer life
-  Flexible
-  Easy to install

PREMIUM RANGE OF **NETTING** SOLUTIONS

TOUGH > ATTRACTIVE > INNOVATIVE > RESISTANT

Tuflex India brings forth the most innovative plastic mesh net making technology to India. This precision technology enables us to produce plastic nets or plastic mesh with the desired structure, strength, filament size, aperture and orientation. Our current range includes square or rectangular meshes using this extrusion technology.

Extended Lifespan

USE of specially selected 100% Virgin raw material ensures our rasins are clean and unadulterated. Providing longevity in both function and appearance aspects.

UV Resistant

Made of high density raw material which is UV stabilized thus not getting brittle, besides resistant to mildew and rotting.

Extra Tough

As compared to conventional plastic mesh net, Rical enables greater strength to the nets. Also the reinforced edges helps added resilience while application.

Salvages

Only with the use of Rical Technology can you get Reinforced edges (Salvages) which gives extra strength and ensure the net material will not unravel.

Premium Finish

The use of Virgin grade plastic ensures a flawless finish and more vibrant colors in the nets.

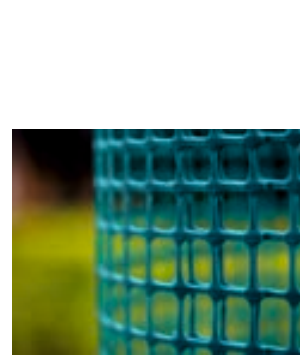

Sleek & Easy to Install

This technology helps create nets with greater tensile strength in lesser weight. This helps easy and quick installation.

Agriculture & Garden Netting

Mesh plastic netting can help protect your agriculture stock from animals and foraging wildlife. The breathable open mesh structure allows air flow while preventing moisture and mildew build-up. Plastic mesh lets water and light reach plants with plenty of air circulation, while providing inexpensive protection for your valuable horticulture stock.

- Agriculture produce Netting
- Tree Protectors
- Farm Fencing
- Bird Net

VENTONET3

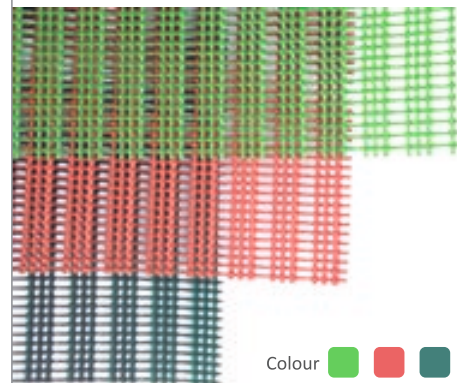

VENTONET4

Wind Protection Screen

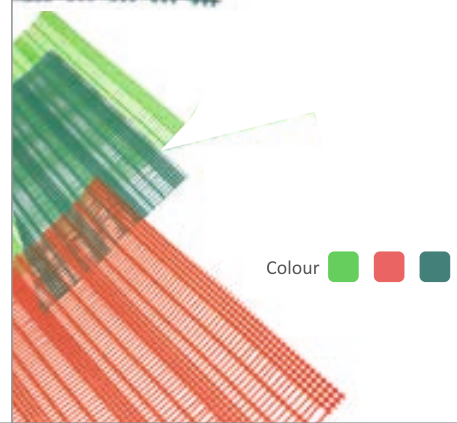

Plastic mesh to mitigate the wind effect and protect gardens and balconies from wind.

This product has been specially designed to incorporate two different rectangular meshes, thus creating a tight pattern that keeps out strong winds.

- Ideal on balconies and terraces to screen from view
- Indicated in gardens to protect plants and cultivations from wind and sunlight
- Pleasant aesthetical effect

TreeGuard

technical Specifications

Rical Sumo Tree Guard

Type	Diameter	Height	Color
Flat	300 mm	4 Feet	R. green
	380 mm	4 Feet	R. green
	480 mm	4 Feet	R. green

Rical Sumo Tree Guard

Type	Diameter	Height	Color
Tubular	300 mm	4/5/6 Feet	Green

Rical CORONET TreeGuard (with Salvagedge)

Type	Diameter	Height	Color
Tubular	380 mm	4/5/6 Feet	Green

TUFLEX SAFETY FENCING

Produced in a vivid bright orange, Tuflex Safety fencing is a lightweight, tough, high visibility protective barrier for use in hazardous areas, ideal for crowd control.

Offering many advantages over traditional barrier products, such as chestnut paling, It is ideal warning barrier for many locations, including construction sites, road works, landslips, airports perimeters, ski trails and crowd control.

ROLL SIZE : 1 X 50 / 100 Mtr Rolls
Material : High Density Polyethylene
Color : Bright Orange
Mesh Aperture : 45 X 55 (+/- 15) MM

CHARACTERISTICS

- Horizontal selvages for easy installation
- First quality polymer
- Good structural resistance
- Highly resistant to chemical agents and weather elements
- Reusable

BENEFITS

- Easy to transport and store
- Fast and easy to install
- High visibility

SUMONET25

25MM RICAL COMPARISON WITH PERIMETER FENCING

PRODUCT NAME			25mm Comparison		
			SUMONET25 25mm Square Mesh HD (RICAL)	SUMONET25 25mm Square Mesh (RICAL)	Perimeter Fencing
Mechanical properties					
1	Tensile MD	KN/M	9.41	4.3	4.16
2	Tensile TD	KN/M	14.44	6.55	4.28
3	Tensile Avg	KN/M	11.925	5.425	4.22
